Announcement

To: All FWAA Members and Associates

From: James F. Fitzgerald, Executive Director 

Subject: Safety Committee Participation Opportunity

Date: May 10, 2018

The Far West Safety Committee is currently organizing for the 2018 year and John Massey (recently retired) has agreed to accept the Chairmanship position offered by FWAA President Randy Grover. Those FWAA members who have Emergency Health and Safety personnel on staff or employees who have an interest in EHS issues which involve regulations, are encouraged to submit your name for possible inclusion on this committee.

This opportunity is an excellent way to network with those who share similar company responsibilities and trouble shoot solutions to compliance requirements. In addition, the FWAA Safety Committee provides input and suggestions for specific trainings throughout the year and input for the Safety tract at our winter conferences.

Get up to speed by getting involved. Contact Mark Swearingen, Mark@fwaa.org or call him at 509-465-5055 to get your questions answered or to submit your name to participate.

Do it today.
